

**RIG GRIP**<sup>TM</sup>  
INCORPORATED

***Decreases Pad Temperatures by 20°F\****

Rig Grip was developed as a containment product. Careful handling could result in multiple uses. Rig Grip Inc makes no warranty as to the number of reuses possible as we do not control the activities of each customer. Care should be taken with sharp edges so as not to puncture the liner. Rig Grip patch kits are available from your supplier.

***Rig Up. Cool Down.***
